moderately
pressure
resistant

Results of the long-term test

nominal diameter	Lifting capacity In kg	cycles
120	40	210.000*
160	65	180.000*
180	85	250.000*

*Tests were conducted under laboratory conditions **at 23° ±1° and a relative humidity of 50% ±2%** in accordance with the Masterflex test standard. The tests were terminated after the specified test cycles had been completed.

During accompanying quality controls, no adverse changes/wear were found on the hoses. It is the responsibility of the user to regularly check the product for adverse changes/wear during use and to replace it if necessary.
